Hongkong, June 5th, 1882.

In is with much satisfaction we note the reappearance of the annual report of the Colonial Surgeon in the Government Gazette. The report of Dr. Avans on the health of the Colony for 1881 will be found in our columns to- made the following appointments :- Mr. Franday reproduced from the official hebdomadal. As was to be expected, the Colonial Surgeon has a good many old complaints to reiterate, for his representations have for years past been studiously ignored by the Executive. To residents generally the most interesting and important section of the report is ! to be found under the head of "Healt". the colony and sanitation." It is eminently satisfactory to leafn, especially considering the imperfect sanitation of the town that the percentage of deaths to the number of residents was 2.10, which low rate has only been reached in two out of the past ten years. We are also glad to learn, on Dr. Ayres' authority, that Mr. Chadwick was impressed with the necessity for improved drainage and an increased water supply, for we of Hongkong, with the advice of the Legislative may be certain that whatever the Commissioner recommends will be carried into effect. The system of househullding to which | the advice of the Legislative Council thereof, for Dr. Arres tukes such strong objection cannot, we fear, be altered now, though had his Governor of Hongkong, with the advice of the expressed opinion been heeded, a great deal Legislative Council thereof, for the Naturalizamight have been done to improve the sanitary condition of the Chinese quarter during of Hongkong, with the advice of the Legislative the past seven or eight years, in which period | Council thereof, for the Naturalization of Chan such an enormous proportion of the city has been rebuilt. The only effect of this reconstruction has been to increase the altitude at Hongkong on Saturday morning, in tow f-the houses and render the spread of fire of the steamer Achilles, of the same line. more probable. That the dwellings them- inquiry it was found that the former vessel had selves, looked at from a sanitary point of the breaking of her main shaft. All went well with view, are no improvement upon those they the steamer until three days out from Singapore. have superseded, is pretty plainly demonstrated by the following sentence in Dr. put under sail, but with the very light winds Ayr. se' report :- "I had the honour and then prevailing, and she being by no means heavily "vexation of showing Mr. Chapwick new rigged, very little progress was made up to the "Chinese houses which had not been occupied | relief of those on board; the Achilles came up "three months in a disgracefully insanitary with them about 650 miles from Hongkong, and "state, such as I venture to say could be night, where they anchored, and they came into "found in nanther town in the world under the harbour the next morning. "European supervision."

salubrity of Hongkong, and has expatiated upon the comparative immunity the Colony the latter a complainant in the previous case, has enjoyed from epidemic diseases and fevers. He did not, however, go into com. McCord, steward of that ship, on the 6th April; parisons, and apparently never considered when on the high seas. Upon the case being the possibility of the death-rate being largely decreased by the stricter observance of sanitary rules by the Chinese, the improvement of the drainage, and the provision of an adequate water supply. The Colonial prejudicial to the complainant. The case was Surgeon shows by a series of returns spread. accordingly remanded until to-day, the defend. ing over nine years that the deaths from ties of \$20 each. fevers and diarrhoa have more than doubled during the latter four years, especially among the Chinese. This fact alone should suffice to arouse the Authorities to action, but it entirely failed to induce the late-Head of the Executive to take any steps to remedy the state of affairs conducing to so lamentable a result. Dr. Aynes has further done service in calling attention to the way in which the Inspectors of Nuisances have been hampered in the execution of their duty by an order of the Governor, issued last July, to the effect that in prosecutions under sub-section 1 of Section II. of Ordinance 14 of 1845, "some actual annoyance to some bond fide "passenger or inhabitant should be proved." As the Colonial Surgeon very sensibly points out, few Europeans have either the, time, or the inclination to spend it, hanging about interested in the formation of an institute for buildings are far superior to those used in prethe Courts for the purpose. The duty is one that specially belongs to the Sanitary and Mr. J. Inglis was voted to the chair, pose for which they were never designed. The system in its place, but in a crowded town, even Hospital forms no criterion as there are, as I and the Governor's order amongst those present being Messrs. A. Johnston, plans anotioned some four years say by Sir if its use were pessible, which it is not, it is of as say, so many sly brothels. ing vote for the election to take place then. For the post of President Mr. Inglis was proposed by Mr. Johnston and seconded by Mr. Ramsay, and Mr. Johnston was proposed by Mr. Fenwick and seconded by Mr. Pinker; a ballot resulted in a majority for Mr. Inglis of one vote, and that gentleman accordingly became president. Mr. Johnston was unanimously elected Vice-President, Mr. Rebbeck, Secretary; Mr. Fenwick, Treasurer; and Mr. Glass, librarian. The ballot for a committee resulted in favour of Messrs, Pinker, Kerr, Eskin, Ramsay and Berson, but Mr. Eakin declining to act, Mr to accept office in his stead.

THE COLONIAL SURGEON'S REPORT. The following annual report of the Colonial Surgeon for the year 1881, appears in Salurday's

Messrs. Mackintosh and Parlane were -ap-

brought to a termination.

Government Civil Hospital, Hongkong, 9th May, 1883.

SIR,-I have the honour to forward my annual report for the year 1881, together with the tables showing the work done in the different establishments under my supervision. I also enclose a report furnished by the Acting Superintendent of Government Civil Hospital, Dr Murray, A.M.D., and a report from Mr. H. Mo-Callum concerning the analytical work done by

There is a decrease in the number of Police, admitted to hospital this year, of 90 as compared with the number of admissions last year; the decrease is most noticeable in the European and Chinese portions of the force; the admissions of the former were 126 in 1880, as compared with 89 in 1881, the admissions of the Chinese were 243 in 1880, as compared with 198 in 1881.- The Indian portion of the force show also a slight decrease in the admissions to hospital, being 224

in 18:0, as compared with 214 in 1881. The number of deaths in the force was 10 this deaths only three took place in hospital, The admissions from the force and the number of deathe for the past nine years is shewn below:

Admissions to Hospital. Deaths. 47 The number of sick is still high, and it

expected to continue so, as long as no improvement is made in the quarters provided for them. the Central Station, Nos. 3 7 & 8 Stations and the Police Hulk being the most noteworthy for their orewied and unwholesome condition Aberdeen Station has been better this year there having been only 17 admissions to Hospital from this Station, as compared with 32 in 1880 this Station generally sends in fever cases of the worst type, but the improvements made seem to have had a good effect on the health of the nien stationed there of late. I find also that the Police are not provided with water-proof coats, so they are often wet through day after day in the rainy season, another reason for so much sickness amongst them.

Sickness among the troops seems to be still, on the increase, the admissions to Hospital-in-1881 being 1,116 as compared with 1,075 in 1880. The number of admissions to Hospital and deaths for the last nine years are shown below.

Admissions to Hospital. Doaths. 1874..... 1,087 1878..... 944 1879...... 1,035

I think that three things may have something to say for this increase, and those are the amount of undergrowth or jungle on the hill sides above Road, of which there seems to me far too much. and should, I think, be cleared away periodically: another is the fouling of the streams by the washermen, some of which are now little better than large open sewers; and as regards the barracks on the north side of the Queen's Road the drainage surrounding them and opening into the sea on the Praya from which the most unbearable and unwholesome stenches proceed at low
